I.24. For Export				
I.25. Identification of commodities			II.a. Certificate reference number	
Owner of the animal	Official ear tag no	Breed	Sex	Date of birth

Part II: Certification	II. Health information
	The undersigned Official Veterinarian certifies the following:
	1. Health status of Sweden
	1.1 According to the standards of the International Animal Health Code of the International Office of Epizootics (OIE), Sweden is recognized as a country free of any former list A diseases as: foot-and-mouth disease (FMD), rinderpest, contagious bovine pleuropneumonia and vesicular stomatitis.
	The country is also officially recognized free of:
	a. Bovine tuberculosis (commission decision 2003/467/EC)
	b. Bovine brucellosis (commission decision 2003/467/EC)
	c. Enzootic bovine leucosis (commission decision 2003/467/EC)
	d. Infectious bovine rhinotracheitis virus(commission decision 2004/558/EC)
	e. Bluetongue (BTV) (in accordance with Article 8.3.3 of the OIE terrestrial Animal Health Code from the 3rd of December 2010).
1.2 The feeding of ruminants with proteins obtained from mammals (except milk) is prohibited since 1995 in Sweden.	
1.3 Sweden has an effective and permanent surveillance and monitoring program against BSE according to EC 999/2001 regulation for the prevention, control and eradication of certain TSEs, which even goes beyond the guidelines of the OIE.	
1.4 The World Organisation for Animal Health (OIE) has since 2008 recognized Sweden as having a negligible BSE risk status in accordance with the provisions of Article 11.6.3 of the OIE Terrestrial Animal Health Code. (category 1).	
2. Health status of the herds of origin	
2.1 The animals come from a herd of origin, where no clinical signs for the past 12 months of enzootic bovine leucosis (EBL), bovine virus diarrhea/mucosal disease (BVD/MD), parainfluenza-3 (IP-3), IBR/IPV, bovine genital campylobacteriosis (Vibrio fetus), trichomoniasis, leptospirosis, neosporosis, paratuberculosis (Johne's disease), BSE and Bluetongue have come to official knowledge.	
2.2 In Sweden paratuerculosis (Johne's disease) is a mandatory notifiable disease. The exporting herd is not put under any official restriction	
2.3 Trichomoniasis has never been reported in Sweden
