INFORMATION

Jordbruksverket beslutar om intagning av växtsorter i den svenska sortlistan enligt Statens jordbruksverks föreskrifter SJVFS 2001:33. För intagning fordras att sorten vid officiell provning visat sig vara särskiljbar, stabil och tillräckligt enhetlig. I fråga om lantbruksväxter, med undantag för gräs avsedda för annat ändamål än foder, gäller dessutom att sorten vid officiell provning i Sverige ska ha visat sig ha ett tillfredsställande odlings- och bruksvärde.

Ansökan om intagning i sortlistan ska skickas till Jordbruksverket, Växt- och miljöavdelningen, Regelenheten, 551 82 Jönköping.

För sorter av höstsådda lantbruksväxter, vilkas provning ska påbörjas under året, ska ansökan lämnas in senast den 15 augusti. För höstraps gäller dock senast den 1 augusti. För övriga växtslag, vilkas provning ska påbörjas under året ska ansökan lämnas in senast den 5 januari.

Ett godkännande är giltigt till utgången av det tionde kalenderåret efter det år då sorten godkändes. Godkännandet kan förnyas om sorten fortfarande odlas i tillräcklig omfattning och uppfyller kraven på särskiljbarhet, enhetlighet och stabilitet.

Ansökan om förnyat godkännande ska göras till Jordbruksverket senast två år före godkännandetidens utgång.

För sorter vars godkännande går ut den 31 december 2014 ska ansökan lämnas in före den 31 december 2012.

INFORMATION

The Swedish Board of Agriculture decides on inclusion of plant varieties in the National List of Plant Varieties according to the regulation SJVFS 2001:33 by the Swedish Board of Agriculture. For acceptance it is required that, after official examination, the variety has proved to be distinct, stable and sufficiently uniform. In addition, and after official examination in Sweden, agricultural plant species, except for grasses not intended for fodder production, must have a satisfactory value for cultivation and use (VCU).

Closing dates for applications to be submitted to the Swedish Board of Agriculture: Agricultural species, winter crops: 15 August. Winter rape: 1 August.

Agricultural species, spring crops; vegetables and amenity grasses: 5 January.

An acceptance is valid until the end of the tenth calendar year following the year of acceptance. Acceptance of a variety may be renewed if it is still cultivated on such a scale as to justify this and provided that the requirements as to distinctness, uniformity and stability (DUS) are still satisfied. An application for renewal may be submitted not later than two years before expiry of acceptance.

For varieties accepted until 31 December 2014 the closing date is 31 December 2012.
