Här nedanför hittar du den här informationen om kornet som finns på varje lager:
Below you find this information about the barley in each storage:

- lagerplats / storage place
- lageradress / storage address
- lagerhållare / storekeeper
- utlagringskapacitet / unloading capacity
- kvantiteter i lagret / stored quantity
- skördeår / harvest year
- kornets kvalitet vid inlagring / quality of the barley at the time of intake
- vattenhalt / moisture content
- orenheter / impurities (grain)
- sönderslagna kärnor / broken grains
- grodda kärnor / sprouted grains
- andra orenheter / other impurities
- rymdvikt / specific weight
- vägda medeltal / weighted average
