

# ADDITIONAL INFORMATION TO THE TRACES VERSION 3 NOTE

## I. NEW LISTINGS

### I.1. Welfare listing

#### I.1.1. Route plan

Printing of section 1 of annex II of the route plan is now consistent with Regulation 1/2005/EC.

#### I.1.2. Authorisation and animal transporters

To allow their selection at the level of the I.16 heading, the means of transport are identified according to the existence or not of a certificate of approval of means of transport by road for long journeys pursuant to Article 18(2) (approved long journey or not approved).

#### I.1.4. Geographical information system

The result generated by the geographical information system is given as a minimum time. It is possible to correct this data but only upwards.

The geographical map will be added in a future version.

## **I.4. Link with the RASFF (rapid alert system for food and feed)**

### **I.4.3. Reinforced controls**

Awaiting the drafting of the explanation note on the implementation of article 24, paragraphs 1 and 2 of the Directive 97/78/EC, the "reinforced control notification" option offered at the RASFF national contact point has been deactivated.

## **II. IMPROVEMENTS**

## **II.4. Search screens**

### **II.4.1. Search using the commercial document number**

From now on it is possible to find a CVED with the commercial document number (airway bill, maritime or another bill of lading) mentioned in heading 11 " means of transport".

The screenshot shows the TRACES (TRAde Control and Expert System) interface. The main content area is titled "Search for CVEDs for Animal Products". It contains a "Search Criteria" section with various input fields and dropdown menus. The "Document" field is highlighted with a red box. Below the search criteria is a "Search Result" table with columns for Certificate Reference, Country of Origin, Consignor, Consignee, Commodity, Status, and RASFF Status.

| Search Criteria                |   |
|--------------------------------|---|
| Certificate Reference:         | <input type="text"/>                        |
| Consignor:                     | <input type="text"/>                        |
| Arrival at BIP after:          | <input type="text"/>                        |
| Arrival at BIP before:         | <input type="text"/>                        |
| Country of Destination:        | <input type="text"/>                        |
| Postal code of destination:    | <input type="text"/>                        |
| Local reference number:        | <input type="text"/>                        |
| Certificate Status:            | <input type="text"/>                        |
| RASFF Status:                  | <input type="text"/>                        |
| Country of Origin:             | <input type="text"/>                        |
| Consignee:                     | <input type="text"/>                        |
| Commodity:                     | <input type="text"/> <a href="#">Browse</a> |
| Means of Transport:            | <input type="text"/>                        |
| Authority of destination:      | <input type="text"/>                        |
| Authority of destination code: | <input type="text"/>                        |
| Authority of origin:           | <input type="text"/>                        |
| Authority of origin code:      | <input type="text"/>                        |
| Container Number:              | <input type="text"/>                        |
| Document:                      | <input type="text"/>                        |
| Has control:                   | <input type="checkbox"/>                    |

| Search Result         |                   |           |           |           |        |              |
|-----------------------|-------------------|-----------|-----------|-----------|--------|--------------|
| Certificate Reference | Country of Origin | Consignor | Consignee | Commodity | Status | RASFF Status |
|                       |                   |           |           |           |        |              |

## **II.6. CVED creation**

### **II.6.3. CVED, destination, transit and trans-shipment**

It is now possible to select or create a recipient (box 3) and a destination (box 8) located in a third country when it concerns a shipment in transit or trans-shipment. It is nevertheless always possible to validate a CVED without filling in these headings if the information is not known.

## **II.10. Home page**

Two sections will appear from now on the TRACES home page: the 'Welcome' section for permanent information and the 'Latest News' section for temporary information. The latter will be classified in different categories indicated by icons.

'Maintenance', 'New Versions', 'Health Information' and 'Health Alerts' can be found in the 'Latest News' section.

## II.11. Approved establishments of third countries

### II.11.3. In force date and classification

The in force date of a listing is from now on the date of its last update. When a listing is modified, the in force date will remain that of the last update for the next 14 days after the publication date. When this period ends the in force date of the new listing will appear as that of the publication date plus 14 days.

From now on the listings are numbered in the box containing the in force and publication dates. Each modification (publication of a new listing, modification of an existing listing) brought to a list will increase by one this number.

|                        |                                    |               |                |                     |               |                        |
|------------------------|------------------------------------|---------------|----------------|---------------------|---------------|------------------------|
| <b>COUNTRY</b>         | Uruguay                            |               |                | Validity date from  | 04/11/2008    | <b>00006</b>           |
| <b>PRODUCT</b>         | Meat products                      |               |                | Date of publication | 22/10/2008    |                        |
| <b>List in force</b>   |                                    |               |                |                     |               |                        |
| <b>Approval number</b> | <b>Name</b>                        | <b>City</b>   | <b>Regions</b> | <b>Activities</b>   | <b>Remark</b> | <b>Date of request</b> |
| 2                      | Establecimientos Colonia S.A.      | Taxarias      | Colonia        | PP                  | 22, 24, B     |                        |

| 7                      | Frigorifico Pul (Pulsa S.A.)       | Melo          | Cerro Largo    | PP                  | 24, B, O      |                        |

### III. CORRECTIONS

#### **III.2. Quantity of the goods**

From now on it is possible to introduce the whole value of the quantity of goods as TRACES requires units and not kilogrammes.

#### **III.3. Ergonomics**

From now on closing a search result to leave one of the TRACES menus (veterinary documents, reports, users and organisations, establishment lists) keeps you on the consulted page.

### III. DWH

#### **IV Reports**

##### **IV 1. DWH reports**

DWH reports are available on line for all authorised central authorities and administrators. On line access will soon be open to all authorised authorities. Explanations of each report are available on the TRACES website via this hyperlink at the following web address:  
<http://circa.europa.eu/Public/irc/sanco/tracesinfo/library?l=/manuals/dwh&vm=detailed&sb=Title>

##### **IV 2. TRACES on line report**

All reports in the TRACES "report" menu have been deactivated with the exception of reports on shipments which have been rejected at borders.
