

I. CORRECTIONS

I.1. Password for the submission of several certificates

The obligation to enter one's password, for each submission of a certificate, introduced by mistake with the latest version of TRACES has been corrected. As in the previous versions, when the box "Use same password for all subsequent signatures" is ticked, several certificates can be validated during the same session without re-entering the password.

I.2. DataWareHouse

DWH is available again for users with the administrator and the central competent authority profiles.

II. CERTIFICATION

II.1. Intra trade certificates

II.1.1. Avian Influenza (2008/838/EC)

The certificate Poultry for restocking game supplies (90/539 IV6) has been modified according to article 7 of Commission Decision of 3 November 2008 concerning preventive vaccination against low pathogenic avian influenza in mallard ducks in Portugal and certain measures restricting the movements of such poultry and their products.

The following point has been added under the additional guarantees: II.2.3. The animal health conditions of this consignment are in accordance with Decision 2008/838/EC.

II.1.2. Blue Tongue (R 289/2008)

The certificates related to bovine semen (annex D3 88/407/EEC) and bovine embryos (2006/60/EC) have been modified in accordance with Annex III of Commission Regulation 1266/2007 by adding the missing exemptions from the exit ban of semen and embryos. Consequently, the exemption BTB of Annex III B has been introduced into the semen certificate and the exemption BTC of Annex C3 has been introduced into the embryo certificate.
